

Remarks

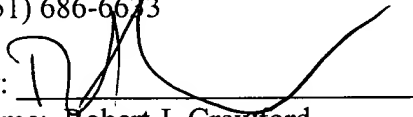

The minor amendment to claim 25 is made merely for grammatical accuracy, not for the purpose of patentability. Moreover, the amendments do not have a narrowing effect.

The specification amendments are made to provide better phrasing, to correct punctuation or grammar, or in the case of the related application's section, to correct a typographical error regarding a serial number, said correct serial number easily retrieved via the U.S. Patent Office PAIR database.

Entry of this paper, and a favorable response are earnestly requested. Should there be any remaining issues that could be readily addressed over the telephone, the Examiner is encouraged to contact the undersigned at 651/686-6633.

Respectfully submitted,
